LEO BURNETT COMPANY, Inc.

Face·Guard

SUPER CHROME STEEL

This little guard is on here because you shouldn't hurt the one you love.

Introducing the new Face•Guard Razor Blade.

It's a different kind of razor blade. It has a guard bonded right over the edge. That lets our super chrome blade glide smoothly over your skin, without dragging or pulling, as it mows down your whiskers.

You get a close shave that doesn't hurt.

Drop a Face•Guard Blade into your safety razor tomorrow. You'll feel what we mean.

Now a close shave doesn't have to hurt.
